11/17/00

Dear
Mr. Friedman,

Thank you for letting me have a moment of your time.

I am writing to you to urge the FDA to stop requiring cruel and inhumane animal tests for pharmaceu-ticals, and instead allow the companies to substitute in-vitro tests, for the safety for both humans and animals.

Please, I urge the FDA to use 21 century techology, instead of obsolete animal tests.

Many thanks for your time!

Sincerely,
N. McDonald
