STOP. Food Irradiation

4-10-99 If food is irradiated I would like food labels to be specific using words or terms as ~~irra~~ "irradiation" or "irridiated" and the use of a radura symbol. I feel Alternative term such as "cold pasteurization" and "electronic pasteurization" are misleading & should not be used.

9387 '99 APR 21 A9:34

The absence of a statement of irradiation would be misleading because irradiation destroys vitamins & causes changes in sensory & spoiliage qualities that are not obvious or expected by the consumer.
