Dear Mr. Lake.

I am writing to object to U.S. participation in any agreement that would withhold information from the consummer. the food we eat and the manner in which it is produced. I am writing specifically about genetic engineering as an Experimental Technology to produce that food. I am emiately opposed to it and insist upon the consumers rights to know. All genetically engineered food should be labeled as such including milk produced by Bovine Growth Hormone Technology.
The American Public should be given a chance and not have the decision made for us behind closed doors.

Sincerely
Elizabeth D Lane
