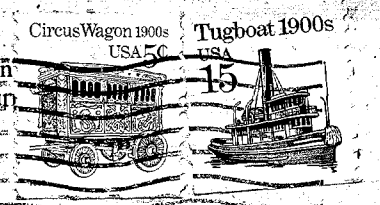
Dear FDA,

I am writing to express my concern over the FDA's regulation genetically engineered (GE) food, to ask that the agency's cur policies be changed, and to support all the points in docket # 00P-1211/CPI, specifically:

- **All GE foods should be labeled so I am informed and have a choice.**
- **GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing.**
- **There should be a moratorium on GE foods and crops until long term studies show they are safe for human health and the environment.**



GE Food Moratorium Petition
