Dear Commissioner Henney 12/14/99

We urge you to follow the EU's lead and move immediately to ban animal uses of growth-promoting antibiotics used in human medicine.

Overuse of antibiotics as growth promoters in livestock has been linked to the emergence of (drug) antibiotic-resistant diseases. Inaction will lead to a disaster waiting to happen.

Please don't disappoint US taxpayers + citizens who count on your leadership to act swiftly. Sincerely Rusum P. Batra
