TO: Food and Drug Administration

FAX: (301) 827-6870

FROM: Terry Embry Sunrise Dairy

MESSAGE: RIN 0910-AF46

My name is Terry Embry and I own and operate a dairy farm in middle Georgia.

I was recently made aware of the proposal recently made concerning the use dead animal material. Docket # 2002N-0273 would create an environmental nightmare that we can do without. Our current state agencies are already overloaded by mandates so I fear the regulatory end would ultimately be funded by us - the farmer. The BSE risk has been proven to nil in the U.S. and we should not let influence from media change the way we currently use these dead or non-ambulatory animals.

Please reconsider this proposal.

Thanks,

Terry E
