Rockville MD 20852

Dear Ms. Henney:

I am writing to express my concern over genetically engineered foods. I support full GE testing to ensure safety. I believe that GE foods must be labeled so that consumers know what we are buying. Until there is individual, independent testing to evaluate the effects of GE foods, I support a moratorium on GE foods.

I support citizen petition (Docket #00P-1211 / CP1).

Thank you for your help.

Sincerely,
Bari Licht
