Dear FDA,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food to ask that the agency's current policies be changed, and to support all the points in docket # 00P-1211/ CPI, specifically:

- **All GE foods should be labeled so I am informed and have a choice.**
- **GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing.**
- **There should be a moratorium on GE foods and crops until long term studies show they are safe for human health and the environment.**

GE Food Moratorium Petition

Little Marais, MN 55614

Additional Personal Comments: I strongly agree with the above pol
natural evolution of plants & animals on Earth took cons-
we can't hope to predict the effects of GE foods on people in-
that does not take place over 50 to 100 years AT MINIMUM!
