Re: Docket No. 00P-1211/CP1

Dear Commissioner Henney,

On March 21, 2000, a coalition of Family Farmers, Greenpeace + other environmental groups and the Center for Food Safety sent a petition to the FDA demanding the development of a thorough pre-market and environmental testing regime for genetically engineered foods and mandatory labeling of such foods.

As a concerned citizens, we urge the FDA to require the labeling and pre-market safety testing of genetically engineered foods. We have an absolute right to know what is in the food we are purchasing!

Please take action on this important issue!

Glenn + Karen Rudy
