a memo from Harriet Pace

Dear Mr. Levitt

Please protect us from genetically modified food until long-term studies have proved their safety.

Sincerely,

Harriet Pace

Consumers have the right to know what's in their bottled water. As a member of the Center for Science in the Public Interest, I support the FDA's proposal that bottled-water manufacturers be required to make available detailed reports of contaminants, just as public water utilities do. All bottled-water labels should also disclose where the water comes from.
