Dear Dr. Henney:

We are writing to you at this time because we strongly oppose the use of human antibiotics in animal feeds and the antibiotics given to farm raised fish. This is insane!!! More and more people are becoming antibiotic resistant and are being left with infections that cannot be treated. Just visit a hospital sometime and see the many people that are in isolation with untreatable staph infections. We've been told by doctors that it's only going to get worse. Something needs to be done NOW!!!

We very strongly urge you to revoke the use of antibiotics in all animal feeds before it's too late. Thank you.

Sincerely,
Robert J. Geisz
Christa M. Geisz
