Consumers have the right to know what's in their bottled water. As a member of the Center for Science in the Public Interest, I support the FDA's proposal that bottled-water manufacturers be required to make available detailed reports of contaminants, just as public water utilities do. All bottled-water labels should also disclose where the water comes from.

From the desk of
VIRGINIA GILMORE 5-23-00

Waters as well as food needs to be heavily regulated & monitored & all information disclosed to the public & the consumer!
