Dear Sir:

Having used every kind of bottled water - each of differing taste - please join with all who seek to enlighten those of us who are very concerned regarding this matter.

Sincerely,
Brenda Crenshaw

Consumers have the right to know what's in their bottled water. As a member of the Center for Science in the Public Interest, I support the FDA's proposal that bottled-water manufacturers be required to make available detailed reports of contaminants, just as public water utilities do. All bottled-water labels should also disclose where the water comes from.
