Commissioner Jane Henney:

RE: Docket No. 00P-1211/CP1

I am writing to support the petition of consumer and environmental groups asking that FDA develop a thorough pre-market and environmental testing regime for genetically engineered foods, and mandatory labeling of such foods.

I have always been concerned about the safety of food used by our family. I have a right to know what is in food products offered for sale, and how it was produced.

Please send me whatever rulemaking documents are available to the public and register my support of the Center for Food Safety position in Docket No. 00P-1211/CP1.

Sincerely

Frank D. Davis
