RE Docket No. 00P-1211/CP1)

Dear Commissioner Henney:

I am concerned about the lack of vigorous pre-market testing of genetically engineered food. In the past, manufacturers have proven to be untrustworthy, when it comes to marketing their products for profit. The F.D.A. was set up to protect the public + I would hope that you will fulfill that promise.

It is only fair that the consumer can make his/her own choice as to what to feed the family. Please insist on labeling genetically engineered products. I do not wish corporations to take away that privelege.

Sincerely,
Elizabeth Gerstley
