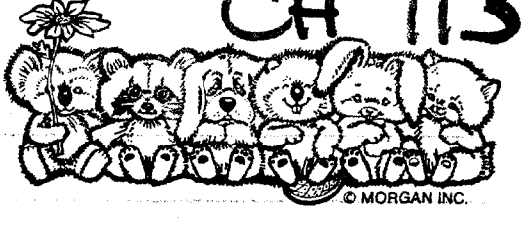
Rockville, MD 20852

To Whom It May Concern,

I just read that Planned Parenthood has petitioned the FDA to be able to sell birth control pills without a prescription. I am asking you to never allow these pills to be made available over the counter. These drugs are too dangerous and cause too many side effects to have them available without a doctor's prescription. Please consider my request and thanks for your time.

CON-1256

CH 113

Sincerely,


Karla J Stifer
