To Whom It May Concern

I urge you to grant petition 98P-0151/CP1 to prohibit the slaughter of downed animals. Animals too sick or injured to stand should not be allowed in the human food chain. They are typically dragged with chains or pushed around by tractor – inhumane to say the least. They comprise a very small % of animals slaughter – thus no economic hardship of eliminated as food. Industry experts say 90% of down animals could be prevented with better care and handling!

Thank you

Sincerely Fran Stevenson
