[redacted] Irradiation in the Production, Processing and Handling of Food

[redacted] Secretary Shalala:

[redacted] concerned about the FDA's proposal to eliminate the labels from foods [redacted] with radiation. I strongly believe I have a right to know if my food [redacted] been irradiated. I urge you to support the rights of citizens by [redacted] permanent, prominent and precise labels for all foods treated [redacted] radiation. Thank you. I also want to see labeling of genetically engineered ingredients
