Dear Commissioner Jane Henney

I hope you are having a good day and things are going well for you.

I am writing concerning genetically engineered food and asking that the FDA would please required that these foods be labeled as such so the consumer is more aware of the products we are buying. This will be in support of Docket # 00P-1211/CP1.

Also will you please encourage safety testing + environmental review of all GE foods.

I am sure your responsibilities are many, and your days more than busy but if you would give these issues mentioned above some consideration, and many other consumers would really appreciate it. Thank you for all the time + hard work you put forth so we can be informed + healthy for the many days + activities God calls us to do.

May you, your family + work staff be blessed abundantly by God.

Sincerely,
Barbara Price
