Dear Commissioner Jane Henney
I would like to express my concerns on genetically engineered food. I and many others, would like to know what we are eating, therefore:

* All GE foods should be labeled
* All GE foods should have mandatory pre-market safety testing
* A moratorium on all G.E. foods since there are no requirements for long term studies exploring their impact on humans or the environment.
* we need to protect organic foods. Organic foods are being contaminated by genetic drift.
* The FDA should STOP supporting monsanto and other companies that produce GE food, seeds, etc.

The docket no# for my comments is
00P-1211/CP1

Thank you,
Carol Caputo
