Dear Commissioner Henney:

I prefer to buy dairy products from cows not treated w/ rBGH. Without a national policy on rBGH labeling it is impossible for me to make an informed choice. My mother, 42 years ago, was given DES, an approved drug. Of course, 12 years later they discovered it wasn't safe. I am, understandably, reluctant to believe in claims that rBGH is safe & I should have the choice, by labeling, to buy milk from cows that are not treated w/ an artificial hormone. I urge you to adopt nat'l guidelines re: rBGH labeling. Thank you. Nancy deRamowsky
