June 20, 2000

Dear Commissioner Jane Henney,

6121 '00 JUL 14 A10:18

I am writing in support of the FDA petition about labeling and regulatory concerns surrounding GMO foods.

I believe there should be mandatory labeling of all genetically modified foods.

I believe we should also adopt strict regulations for the health and safety testing of GMO's in this country.

And finally, I believe the requirements for comprehensive assessments of environmental risks associated with GMO's should be addressed.

I should have a choice - and it is my right to have a choice - about what I put into my body.

These foods should not be considered "safe" and I will fight for mandatory pre-market testing to determine long-term effects on my health and my environment. over

00P-1211

C 3099

Thank you for your time.
I know you will do what is right for our country.

Concerned in FL,

Jenna Lomazzo,
L.M.T
