Rockville
MD 20852

Dear Ms Henney,

I am writing to support the Center for Food Safety's petition abo the genetic modification of our food supply.

I support mandatory labelling of all genetically modified foods, so that consumers can have knowledge and choice concerning our food purchases.

I support the adoption of strict regulations for the health and safety testing of GMOs.

I support mandatory comprehensive assessments of environmental risks associated with genetic modification.

Human health and the well-being of this planet are too vulnerable and precious for decisions about them to be driven by inadequate research and short-term and limited interests.

Yours sincerely,
Linda Giannoni
