Dear Sir or Madam, 10/00

9564 '00 OCT 24 P2:25

I am writing to oppose the slaughtering of downed animals.

It seems obvious that ill animals who are downed should not be used for food. There is risk of BSE and CJD — this is too great a risk.

Also, downed animals cannot be moved humanely and are often treated terribly.

Furthermore, these downed animals can be treated more humanely. Also, 90% of problems leading to downed animal situations can be avoided.

Please do what you can
