To Whom it May Concern-

I am writing about docket #98P-0151(CP). Please grant this petition to prohibit the slaughter of downed animals. If they are sick we should not let them enter our food chain, it may cause meat eaters to become ill as well. It is estimated that 90% of downed animals can be prevented with better care & handling of the animals. Removing downed animals from slaughter would give the industry incentive to take better care of the animals. Thank you for your consideration in this matter.
