The issue here is Docket Number
98P-0151-CP1 Downed Animals.
This is supposed to be a humane country, far from it. The way animals are treated, is brutal, so inhuman, why do you allow this to continue? These poor creatures should be put to sleep + definitely not put on the food market.
I don't worry about eating it, I'm vegetarian.

The "owners" as you call them should be put out of their misery.
I beg you to put an end to the downed animal trade.

Sincerely,
Doris Taylor

98P-0151
