How can Dr. Henney approve of AU486. without becoming a part of the Culture of death? Are you so enamored of the liar-in-Chief who shames our nation that approval of a pill(s) designed to kill, genetically engineered food. BGH in milk [illegible] Aspartame in food chain endanger future generations are approved by you? Is there no honor anywhere in this administration? Have you been bought by those who profit from bad science? Shame!!
