have been going home. They have been
rescued from abuse or abandonment.
They bring a joy to my life. They cannot

people that think they couldn't live without a big juicy steak, & I understand their choice of that. But there are the right ways of handling it all too. They feel whats going to be done to them & only wish it wasn't but know they have no say. Then they wish there was no torture & pain, just a quick & painless way, since I have no choice to live. Please ~~[illegible]~~ prohibit the slaughter of downed animals
