I am a concerned senior citizen. It makes no sense to me that, after more than 7 years of inaction, the FDA is now rushing to put forth a new proposal that will charge the way seniors, like me, access hearing aids.

Please stop the FDA from acting on this proposed hearing aid rule. I'm sure you don't want any new barriers raised to hearing health care in this country. Only 20% of those with a hearing loss actually wear hearing aids as confirmed by AARP recently.

Please let me know what you have done to stop the proposed hearing aid rule from being issued by the FDA! I await your answer!
