Washington DC 20201

Dear Secretary Shalala,

It's been brought to my attention that food products being sold in grocery stores is not required to have labeling that clearly identifies irradiated food. This is alarming.

As a medical professional and a home-maker, I strongly urge you to do all in your power to see that the American public is educated and protected from hazardous foods. We need complete labels to warn us of irradiated products.

Sincerely,
Ruth R. Stober
