Dear FDA,

I cannot believe that Danco could actually get this far and so quietly trying to get approval for RU-486.

What happened to the moral ethic to "do no harm"? "Above all", yet !?!

Thank goodness for the lengthy article in the Wall St. Journal.

It serves only an evil purpose to give approval to mifepristone. To give it outside of a clinical setting is the ultimate abomination, killing a child and endangering the mother besides.

STOP RU-486!
