To whom it concerns, 3-15-00

regarding the norplant,

my name is Christy Hughes. I just found out last night on my mom's computer about the lawsuits against Wyeth Ayerst. I got norplant put in my arm in July of 91'. I was 17 years old, I had one child who was one, about 3 weeks after getting the norplant I bled every day I was so weak and pale and I gained 40 pounds. I had horrible migraines in which one night I went to the emergency room and they gave me a shot of Demerol which helped my head. It always felt like it was exploding. I went through horrible mood swings I would beat on my husband of only a year, up and manage messed up. all over something stupid, like he didn't get his paycheck at 12:00, and I had to wait till 4:00. I became

C223

a totaly different person. I also began losing my hair! which really upsets me, every dr. visit I complained they said it was all normal!! I begged them to take it out. when they finally did they only got 2 out. they rescheduled me for 3-4 weeks later but about 2 weeks later I was having a severe headache I felt like I was going to die. I went to my family DR at about 11pm and pounded on the door till the emergency DR on Duty let me in. he got out the other 4. this was all within 6 months.
Somewhere between 92-99 - I got dysplasia on my Cervix I'm not sure why or how my DR's don't tell me much the Dysplasia then gave my 2 son papaloma warts. I'm still 40 pounds overweight even

Though I've been on a diet for 9 years. My hair loss now covers half my head I am 25 years old and look like crap, all because of birth control. If you or someone you know can help me file a law suit for the injustice done against me, my Chelsea please call or write.

Sincerely
Christy A. Hughes
