Dear Ms. Henney,

I implore you to put an end to the use of blood, animal parts & by-products in animal food, cosmetics, fertilizer, etc.

Cows are not meat eaters by nature & I'm certain you have seen the results of feeding them these products. Gelatin & gelatin by-products can contain infectious agents. US pigs have exhibited symptoms of TSE & have proven susceptible to TSE in lab tests.

I believe it is a grave matter what we feed our animals as well as the health & welfare of all beings. Their lives reflect our own.

Please see the immense importance of these issues & our crucial role in them.
