Dear Ms. Henney:

Regarding Docket 99P-0033 CP 1, I respectfully request that you use your position to act on the Humane Farming Association's petition banning the practice of feeding dead animals to other farm animals.

It doesn't make sense to refuse to take blood from a human who has lived in England at some time during the last twenty years for fear he may have been infected by eating infected meat (mad cow disease) and yet allow dead animals that may also be infected to be fed to animals here that we may eat. As my students here at the high school would say, Duh!!!

Please enact the provisions of the HFA's

99P-0033 C324

petition. I would love to be able next September to show my twelfth-grade contemporary issues class an example of their government working for them.

Sincerely,
Margaret Pennewell
