Docket 99P-0033/CP1

July 10

Dear Ms. Henney,

1114 '00 JAN -3 A9:52

Please stop the practice of feeding dead animals to other farm animals. Another means must be found to dispose of offal, rather than putting it into animal feed that eventually gets into the human food stream.

Mad cow disease and TSE are all too real. Its time to protect the public health.

Mr and Mrs Ed Searcy
