Dear Sirs/ms.

I want to encourage you to lable foods, so we can see & tell how much "trans fat" we are getting.

I mostly go by how soft or hard (Lard + shortening versus oil, & Oleo and the kind that is in bottles that can be squeezed out) and etc.

I'm 83 but still feel good and never get tired, so I'm taking care of my health by my eating the right foods.

I will be reading your lables, so make them as simple as you can. (like will not harden in arteries)

Thanks

Yours truly,
Iva Wilmoth
