Dear Dr. Henney:

In this age of computer ubiquity, please do not pass over my modest hand-written note. I am writing out of tremendous concern about the prospect of "super bugs." The frightening spectacle of more and more bacteria becoming resistant to antibiotics seems to be close upon us. I urge you to prohibit livestock producers from routinely adding medically important antibiotics to animal feed to promote growth.

Thank you for your attention.

Very truly yours,
Maria Sarath Ragucci
