FDA Commissioner Henney
5600 Fishers Lane
Rockville MD. 20857

Dear Commissioner Henney,
As a citizen, as a retired social studies teacher, and as a knowledgable human being, I am appalled that U.S. government continues to allow livestock producers to add medically important antibiotics to animal feed to promote growth. The research has been in for years about the potential dangers of doing this. Please stop this.

Sincerely,
Barbara G. Mahony
