Jane E. Henney,

Dear Dr. Henney,

2591 '00 JAN -6 AM 1:19

Just a note to voice my objection to the use of antibiotics in our animal feed in order to promote growth. The European Union has banned this & is supported by the CDC & the World Health Organization.

I sometimes wonder what it is about the United States that just ignores others opinions & goes ~~to~~ blithely on our way - especially if there is an extra dollar to be made by someone.

I said this is my opinion but

99P-0485

C 2197

but it is shared by my husband & 4 adult children.

I really doubt that this letter will even be read or any attention paid to it but I am the designated writer for the names listed below.

If it is read - thanks for listening & just be aware that there are some actually scared & concerned people out here.

Sincerely,
Mary A. Wessmer
