12/22/99

Dear Jane,

I am writing you as a citizen who is very concerned about the abuse of antibiotics. I am very concerned about antibiotic-resistant viral strains; I am also concerned about animal mistreatment. Thus, I would like to urge you as Commissioner to pressure the FDA to ban animal uses of growth-promoting antibiotics used in human medicine. The European Union has already done so - we need to follow their wise lead.

Thank you for your time.

Sincerely,

Emilie Pechzel
