Jane Henney 8714 '00 JAN 24 P3:28
Comm. Food and Drug Administration

Dear Ms. Henney,

I have been reading and hearing about the widespread use of antibiotics to promote growth in animals that we eat. I understand the European Union has banned the use of those antibiotics which are used in treating humans. Having lived for 76 years I have seen many changes and trends in the use of anti-biotics and have myself experienced the use of those which no longer work. My concern as a citizen is that I wish that your agency will follow the prudent course of the Europeans and ban all growth promoting uses of antibiotics used in Human Medicine.

Sincerely,

Allegra A Ahlquist
