The Hon. Dan Burton
Gov't Reform & Oversight Comm.
Washington. DC.

Dear Sir:

I urge you to call Bonnie Campbell M.D. & John Hammell, & other witnesses to a Hearing before your Committee & I urge you to Force the F.D.A. to withdraw the 2nd paragraph of its comments along with the NAS Risk Assessment document in keeping with current U.S. law. Congress has spoken clearly on this with passage o DSHEA & most recent again in October of 1997, when dietary Substance & Supplements were Specifically exempted from harmonization language in the FDA reform Bill.

Yours truly
Ira Pardo Signature
