Attn: FDA

Gentlemen:

1947 00 JAN 31 P2:41

Please take heed to the attached.

We consumers need all the help we can get — please include transfat on food labels.

Too many people are having clogged arteries — you can help to correct this condition!

Thank you.

Sincerely,

Mary & John McGovern

***Trans* fat is a hidden killer in our food supply. As a member of the Center for Science in the Public Interest, I strongly support the FDA's proposal to require that *trans* fat be included in with saturated fat on food labels (with a footnote that reveals the amount of *trans*). The FDA should keep the current Daily Value for saturated fat, and should limit the amount of *trans* fat in foods that make claims like "low in saturated fat," "cholesterol free," or "lean."**
