Rockville MD. 20852

Why all the production of TFA's when it is not natural? or necessary
all TFA's & any TFA's are harmful
Does nothing good for the health of the public.
Good virgin oils do not need an extended shelf life.
The example I have, is I buy Olive oil and it remains fresh and non toxic at least 1 year by the store in the kitchen.

I do not believe that the proposal P99-27 of Nov. 12-99 is equipped to deal with the harsh reality of TFA's which causes so much ill health.
