Re: Docket 94P-0036

2669 '00 JAN -7 P1:59

Please, please require the trans-fat content of foods to be listed on labels. I believe trans-fats are worse than saturated fat. The national chain of stores - Wild Oats - has vowed not to sell any product in their natural food stores that contain trans-fat. Jim after Whole Foods, another chain, to make the same commitment.

You have all the fact on partially hydrogenated oils. Let the public know what a health threat this chemical process really is. Just list it... at least list it!

Thank you
