TO WHOM IT MAY CONCERN:

I just read an alarming article on Monsanto's recombinant bovine growth hormone (rBGH). I demand an investigation into your handling of the Monsanto application and 1993 decision to approve rBGH.

As a mother and consumer of dairy products, I demand a recall of rBGH treated dairy until the FDA conducts a new and thorough review of this drug.

I was shocked to learn that the FDA never examined all the "raw data" from all the safety studies ... but relied entirely on a summary of the study provided by Monsanto." Many potential health concerns remain
