12/29/99

Dear Secretary Shalala

'00 JAN 11 A10:57

Subject: Irradiated food. (IF)

No. No. No. IF is dangerous. I don't want to buy it. There's too many toxins in our food, water, air already.

At least label it clearly, (large, easily found, as on cigarette packages).

You guys are suppose to protect us (*). Intead we have to protect ourselves from our government: you.

Sincerely,

Lance Grolla
