Dear Secretary Shalala,

I am writing to express my concern about the possible weakening of labeling requirements for irradiated food that is being considered by the F.D.A. I strongly believe that it is my right to know if the food I eat has been treated with radiation.

Only clear, honest and permanent labeling on irradiated foods is acceptable. Or, in the case of unpackaged foods, there should be posters in plain view accompanying such foods.

I hope that you will defend the consumer's right to know in this important decision-making process.

Sincerely,
A. Peries
(Mrs. Anne Peries)
