June 2, 2000

Dear Dave,

0635 '00 JUN -8 P2:10

I am a member of the Sierra Club and many other environmental groups in Western PA. Recently, I saw an article concerning the weakening of labeling on genetically engineered foods. I have several food allergies and it is important to me to read labels

on foods I buy at the store.
I feel the public has a
right to know how their
foods are being grown. I
hope the F.D.A. will continue
to strengthen the laws on
regulating food.

Sincerely,

Sarah D. Maloy
