This is what I want from my FDA.

1) rescind the 1992 policy on genetically constructed foods.
2) pre-market safety checks. Come on that is YOUR JOB. We pay taxes, we the people you are an entity for our protection!
3) I want to know if my food has been genetically constructed.

At least if you're not going to do a presafety assessment allow me the option of refusing to eat artificially constructed food!

I deserve that choice.
